Copy-paste prompt for Manus (to return a .zip of raw ComfortDelGro documents)

Download and package raw, official investor-relations and SGX filings for ComfortDelGro (SGX: C52) into a single .zip. Use only primary sources: ComfortDelGro Investor Relations site and SGX (SGXNet / SGX announcements portal). Do not use third-party data sites.

Scope and items to collect:

1. Annual reporting (audited)

- Annual Reports, last 5 fiscal years (PDF), including full audited financial statements and notes.

2. Interim and results reporting (unaudited where applicable)

- All interim results packs for the last 10 reporting periods (Half-Year and Full-Year, plus any Quarterly if published), and for each period include every attachment available:
    - “Financial Statements and Related Announcement”
    - Earnings/press release
    - Investor/management presentation deck(s)
    - Any webcast or Q&A transcript if the company publishes one (PDF/HTML capture)

3. SGX announcements archive (model-impacting disclosures)

- Export and download all SGX announcements for the last 5 years (or longer if easy), prioritizing and ensuring inclusion of:
    - Dividends (interim, final, special), payout details
    - Share buybacks, treasury shares, share capital changes
    - Equity issuance, placements, rights, ESOP/share-based payment grants
    - Debt and funding: bonds, MTN, refinancing, major facilities
    - M&A, disposals, JVs, restructurings
    - AGM/EGM: notice, circulars, proxy forms, results of meeting, AGM presentation slides
    - Profit warnings, major contracts, regulatory or litigation disclosures, SGX queries and responses

4. Sustainability reporting

- Sustainability Reports (or ESG reports), last 5 years (PDF).

Packaging requirements:

- Deliver a single .zip file with this folder structure:
    - /01_Annual_Reports/YYYY/
    - /02_Interim_Results/YYYY_H1 or YYYY_Qx/
    - /03_Full_Year_Results/YYYY_FY/
    - /04_SGX_Announcements/YYYY/MM/
    - /05_AGM_EGM/YYYY/
    - /06_Sustainability/YYYY/
- Preserve original file formats (PDF, XLS, HTML saved as PDF if needed).
- Use consistent filenames: “C52__.pdf”
- Include a manifest file at zip root: manifest.csv with columns:
    - filename, period, doc_type, publication_date, source_url
- If any item is unavailable, include a “missing_items.txt” explaining what could not be found and the URLs checked.

Return only the .zip (no analysis).
